

# 2020 Your Green Life! Spotlight No. 1

## POWERING YOUR GREATNESS

Pacific Power proudly provides electric service to more than 773,000 customers in Washington, Oregon and northern California. They believe in their promise of public service: an obligation to deliver safe, reliable electricity at a reasonable price in the cleanest, most environmentally sustainable way they can. Through their commitment to developing renewable resources, providing exceptional customer service, advancing smart grid technology and creating customized energy solutions – they believe they can meet that promise.

Pacific Power customers want clean energy at an affordable cost. Pacific Power does too. Their long-term energy plan calls for significant increases in lower-cost wind, solar and storage resources to meet customers' needs. In addition, homes and businesses have a variety of sustainable and energy-saving choices with programs such as Blue Sky<sup>SM</sup> renewable energy, Wattsmart<sup>®</sup> energy efficiency solutions and clean transportation options.

When it comes to your home and family, you want choices. That's why Pacific Power provides affordable, sustainable energy, along with flexible options that fit your lifestyle.

- Get Wattsmart cash incentives for home energy upgrades such as smart thermostats or insulation.
- Choose renewable energy options through the Blue Sky program.
- Drive to a better future with clean transportation solutions.
